

Montlingen, Switzerland, September 6th, 2011 – NVS Technologies AG, manufacturer of GNSS technology and equipment announces that it has appointed Robert Dumont as Vice President, Sales & Marketing. Reporting directly to Vasily Engelsberg, NVS Technologies' CEO, Robert will be responsible for the overall development, coordination, functional management and leadership of all sales and marketing activities at NVS Technologies. Robert joins NVS Technologies with over 20 years of experience in GNSS, Satcom & wireless semiconductor and subsystem sales, marketing and business development. Robert has held the position of Vice President, Sales & Marketing at Tallysman Wireless, and Vice President, Sales & Marketing at Wi-Sys Communications (acquired by PCTEL), where he was instrumental in growing its business exponentially. Previously, Robert served as International Sales Manager at SpaceBridge Semiconductor and Atsana Semiconductor, and held sales representative positions for RFMD and Ericsson.
