

**Montlingen, Switzerland – April 16th, 2012** – NVS Technologies AG, announces today that it will be attending the International CTIA WIRELESS® 2012 Conference & Exposition ([www.ctiawireless.com](http://www.ctiawireless.com)), taking place on May 8th-10th, 2012 in New Orleans, LA, USA. NVS Technology's personnel will be present at this upcoming event to demonstrate its high performance, highly integrated multi-GNSS Receivers. Anyone wishing to arrange a meeting should contact us at [info@nvs-gnss.com](mailto:info@nvs-gnss.com) at their earliest convenience.

The International CTIA WIRELESS® 2012 is the premier marketplace for wireless, telecom and broadband as well as the key vertical markets that have entered into wireless. Gather alongside 40,000 service providers, manufacturers, developers, retailers, enterprise end-users and the media to join in the dialogue on the future of wireless.
